REACH INDUSTRY CANDIDATES

As a niche job board built with industry employers in mind, we measure success in terms of effectiveness versus efficiency.

GENERALIST JOB BOARDS TARGET EVERYONE

When an employer posts opportunities on a generalist job board, they aren't just targeting industry professionals - they are targeting everyone.

WE FOCUS OUR MARKETING

At *cityhealthcarejobs*, we focus our **marketing** toward real, industry-specific candidates. This eliminates the need to filter through countless unqualified or out-of-industry applicants - resulting in a more refined, better qualified, higher quality candidate pool.

PRICING

cityhealthcarejobs is built from the ground up with industry employers in mind. As a result, our rates are determined by how many jobs an employer has posted each day.

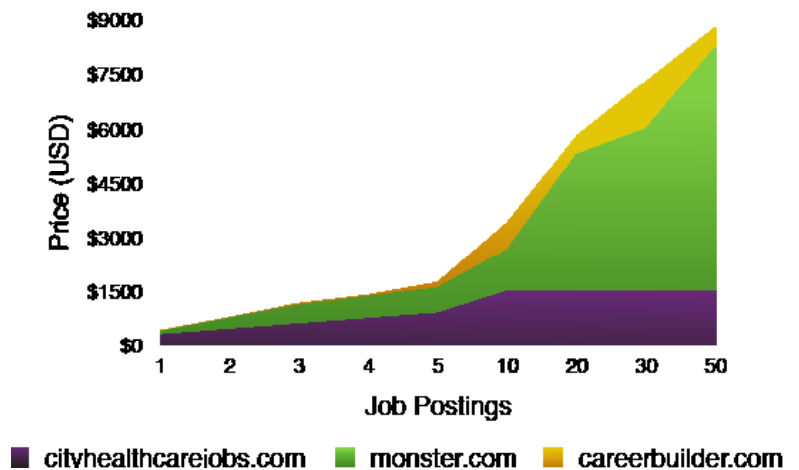

No Contracts or Commitments.

Rather than charging an up front flat fee for 30-day or 60-day job postings, *cityhealthcarejobs* offers competitive pricing on a **pay for what you use** system, billed in arrears.

Our rate is \$10/day for the first job, and \$5/day for the next eight jobs. Any additional jobs are at no additional fee. Whether posting 10 jobs or 100 jobs, the maximum daily fee is only \$50 (\$100 for Health Systems).
